

Job Title: Software Developer (Python & AI)

Company: XYZ Tech Solutions

Job Summary:

We are looking for a skilled Software Developer with expertise in Python, AI, and Machine Learning. The ideal candidate will be responsible for developing, testing, and deploying AI-driven applications.

Responsibilities:

Develop AI-powered applications using Python & Flask/Django.

Work with Machine Learning models and APIs like Gemini AI & OpenAI.

Extract and process data from various sources, including PDFs, images, and databases.

Collaborate with frontend developers using React.js or Angular.

Ensure the performance, scalability, and security of applications.

Write clean, efficient, and well-documented code.

Debug and optimize existing applications.

Required Skills:

✓ Programming: Python, Flask/Django, JavaScript

✓ AI & ML: TensorFlow, OpenAI, Google Gemini AI

✓ Databases: MongoDB, MySQL

✔ Cloud & Deployment: AWS, Google Cloud, Docker

✔ Version Control: Git, GitHub

Qualifications:

Bachelor's degree in Computer Science or a related field.

0-2 years of experience in software development.

Strong problem-solving and analytical skills.

Salary: ₹6,00,000 - ₹12,00,000 per annum

Location: Remote / Bangalore
